POLETE IN

THE GREEN MOSSY BANKS. BY MRS. AMELIA R. WELBY. Oh, my thoughts are away where my infancy flew, Oh, my thoughts are away where my infancy flow, Near the green mossy banks where the batter-cups grow; Where the bright silver fountain eternally played, First Laughing in smakine, then singing in shade. There oft in my childhood Pre wandered in play, Flinging up the cool drops in a shower of spray, Till my small maked feet were all bathed in bright dow, As I played on the bank where the butter-cups grow.

How softl. that green bank sloped down from the hill, To the spot where the famining grew suddenly still! How cool was the chadow the hing branches give. As they bung from the willow and dipp'd in the wave! And then early pale hip that slept on the stream.

Rose and fell with the waves as if stirred by a dream,
While my home 'mid the vine-leaves rose soft on my view,
As I played on the banks where the batter-cops grew.

The beautiful things, how I watched them unfold, Till they lifted their delicate vases of gold; O, never a spot since those days have I seen, With leaves of such freelmers, and flowers of such slicen; How glad was my spirit, for then there was margint To burthen its wing, sare some beautiful thought, Breaking up from its depths, each wild wind that blew, O'er the green mossy bank, where the butter-cops grew.

The paths I have tred I would quickly retrace, Could I win back the gladness that looked from my face, As I couled my warm hip in the funtain I love, With a spirit as pure as the wing of a dove.

With a spirit as pure as the wing of a dove.

Could I wander again where my farchead was starred,
With the beauty that dwelt in my boson unmarred;
And calm as a child, in the starlight and dew,
Foll asleep on the bank where the butter-cups grew.

POLAND, Mr.

Farewell to Father! reverend hulk! In spite of metal-spite of bulk, Soon may his cable slip! And while the parting tear is moist, The flag of gratitude we'll hoist, In duty to the ship!

Farewell to Mother! "first class" she! Who launched me on life's stormy sea, And rigged me fore and uft; May providence her timbers spare, And keep her hull in good repair, To fow the smaller craft.

Farewell to Sister! lovely yacht! But whether she'll be "manned" or not, I cannot now foresee: May some good ship a "tender" prove, Well found in stores of truth and love, And take her under lec.

Farewell to George! the jolly boat! And all the little craft affoat In home's delightful bay! When they arrive at sailing age, May wisdom give them weather guage, And guide them on their way.

Farewell to all on life's rude main! Perhaps we ne'er shall meet again, Through stress of stormy weather; But summoned by the board above, We'll harbour in the port of love, And all be moor'd together.

I LOVE THAT HOUR.

There is an hour, when all our past pursuits, The dreams and passions of an early day, The unripe blessedness that dropp'd away From our young tree of Life-like blasted fruits-All rush into the soul. Some beauteous form Of one we loved and lost, or dying tone Haunting the heart with music that is flown,

Still lingers near us with an awful charm! I love that hour—for it is deeply fraught With images of things no more to be; Visions of hope, and pleasure, madly sought, And sweet dreams of love and purity. The poesy of heart, that smiled in pain, And all my boyhood worshipped—but in vain!

From the Lady's World of Fashion. THE EMIR'S DAUGHTER.

"Sing again, Christian," said the Emir's daughter to the captive who knelt at her feet. "What shall I sing?" asked the minstrel, starting

from a reverie, and carelessly running his fingers over the instrument, giving utterance to a prelude of wild but exquisitely melodious tones.

but exquisitely melodious tones.

"Shall I sing of war, or of love, or "—and his voice became suddenly sad—"of captivity?"

The princess turned her large dark eyes on the speaker, and involuntarily sighed, for she knew how

The maiden leaned her face on her hand to listen; and as she reclined thus, the minstrel thought he had never seen any thing so beautiful. Her brow was as smooth as marble; her mouth and chin cut in the most exquisite proportions, while her long lashes drooping over her eyes, gave them the depth of shaded water. If there was majesty in that face, there was also grace. If the classic features made it for a moment seem stern, the kind smile and softened look of the eyes relieved you instantly from the feeling. And now, as she gazed on the minstrel, there was a dewy tenderness in those full dark orbs which might have said volumes to him if he had noticed them closely, which perhaps he did. He raised his head and spoke:

you can understand. The princess nodded, and he began. The song was mournful, and before the minstrel had finished. he had drawn tears into the eyes of the listener, merely by the touching pathos of his voice. A pause en-

And may the god you worship bless and preserve you "-and she turned away to hide her tears. A new light broke in upon the minstrel. Could it be that he was beloved? Was this the cause of the kindness with which he had been treated? With a sudden hope he was about to fling himself at the feet of the princess, when one of her father's eunochs entered the apartment, and he was forced to resume his right in equity CLARK CLEMENT, of said Brownfield, has instrument in order to conceal his emotions. A new hope now arose. He would meet his mistress at the postern. Alus! there was no one there but an cunuch, whom she had bribed, who was perversely silent. The minstrel was still in doubts, when lights were seen in the garden, ndvancing towards the postern. No time was to be lost. The eunuch pushed him into the boat, the crew of which instantly rowed off from the land; and the captive, yielding to his fate, bade farewell forever to

the Emir's daughter. But he could not forget her. Even after arriving at the Christian camp, and resuming his round, (for all Mare, supposed to be three years old, with small Saracen beauty; and long he lingered in Palestine, bonches on her hind feet; taken up in his enclosure on Saracen beauty; and long he lingered in Palestine, when his interest should have called him home, hoping to hear of her. But despair at length took possession of him, and he returned sadly to Europe, where the farrest ladies of his own gay province strove in

vain to win him by their smiles. Oh! had he known the agony with which the Emir's daughter watched, from her tower, his departure—had he been told how, day by day, she sought to glean some intelligence of his arrival at the Christian camp, he would have left his broad possessions at once, and lended to found his way back to her, through a thousand perils, Feb. 14. 1812.

TATURAL PRINCIPLES. It is written in the book of nature and common sense, that the natural vegetable productions of every country are, if properly applied, amply sofficient for the curo of every malady incident to that climate. WRIGHT'S INDIAN VEGEAABLE PILLS

are composed of plants which grow spoutaneously on our own soil and are therefore better adapted to our constitutions than medicines concocted from foreign drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth subject to ONLY ONE DISEASE,

viz: corrupt humors, or in other words, impurity, and cure every form of this one disease, on natural principles, that is, by Cleansing and Purifying the Body, it must be plain to every reflecting mind that a perservence in the use of the med-icine, according to directions, will be absolutely certain to drive every malady from the body.

When we wish to restore a symmp or morass to fertility, do we not drain it of its superabundant water? In like manner, if we would restore the body to health, we must cleanse it of

WRIGHT'S INDIAN VEGETABLE PILLS will be found a delightful medicion for carrying out this grand purify-ing principle, because they expell all morbid and corrupt hu-mors, the cause of disease, in an easy and natural manner,

and while they every day,,

GIVE EASE AND PLEASURE,
disease of every name is rapidly driven from the body. Beware of Counterfeits !

The patrons of Wright's Iodian Vegetable Pills are cautioned against being deceived by medicine purporting to be Indian Pills, manufactured by one A. L. NOUROSS, who is travelling about the county, cadeavoring by every artifice to palm off his worthless trash for the geouine.

It should be remembered that all genuine medicine has the titte expressed in full on the sides of the boxes thus:—
